All will be cared for by the division.

Revival Without Evangelist. The Rev. Charles Whitefield Weish, pastor of the Park Presbyterian Church of New York, in an open letter to the Protestant clergymen of that city, has

"Of course we need a revival of religion "Of course we need a revival of religion both within and without the churches in New York city," Rev. Mr. Welsh wrote. "It is not altogether necessary, however, to have 'Billy' Sunday or any one else come from afar to furnish this combunity, if we ministers of New York city and the members of the official boards could get together on a common basis."

## MINT HERE TO MAKE \$12,000,000 FOR CUBA

Eight Designs of Coins Will Constitute New Currency. Competition for Contract.

A \$12,000,000 order of coins for Cuba has been placed with the Philadelphia Mint. Eight coins will constitute the new sys-tem. What other orders will follow is

or known at the Mint here.

Cuba has never had a currency system of its own. Heretofore coins circulated of its own. Heretofore coins circulated there have been those of the United States and Spain, with a scattering of coins from South and Central American nations. A bill in the Cuban assembly provided for the new system, declaring for a standard basis at par with the United States coins. It is expected that the circulation of the United States and Spanish coins throughout Cuba will be ended by the institution of the new system. "Negotiations for the Cuban currency

began at Washington about last November." Adam M. Joyce, superintendent of the Mint, said today. "I am not familiar with the designs, but I believe there are to be eight different coins in the system. The only thing we require is that the designs can be worked into coins with difficulty, and that the reliefs are suffi-ciently high. I cannot tell when we will begin on the order."

It was reported today that the first designs submitted to the Mint officials were drawn in a way to make the mechanical work difficult, and that they have been returned to the Cuban Government, un-der whose direction they were made. Mr. Joyce would not discuss this phase of the order.
The contract was given to the Phila

delphia Mint as the result of competitive bidding, it was reported. All the work on the first order will be done here. This is not the first time that the Philadelphia Mint has coined money for other coun-tries. There have been orders filled for Costa Rica, San Salvadore and Ecuador.

SCORES BIASED CLERGYMEN Clergymen who chase "the high lights" came under the hammer of the Rev. Peter Wright, pastor of Gethsemane Baptist Church, 18th street and Columbia avenue, in an address before the weekly meeting of the Baptist Ministerial Conference at the First Baptist Church today. He spoke on "The Passion of God." "Billy" Sun-day, he said, is doing excellent work, but his task will not be accomplished until he has taught the clergymen who cater to the rich people that their place is with wealthy and poor alike.

## LIQUOR DEALER GIVES FRIENDLY IMPRESSIONS OF "BILLY" SUNDAY

Led by Curiosity to Attend Meeting in the Tabernacle, He Admits Evangelist's Sincerity - Eccentricities of Temperament

Saloonkeeper Surprised to Hear Himself Classed With Criminals, But Gratified by Cordial Reception Given Him by Critic of His Business.

By WALTER H. FENLEY

Liquor Dealers.) Inspired by curiosity, I journeyed to the Sunday tabernacle to hear the famous baseball evangelist preach on the evils of the liquor traffic.

I had heard many discussions in my place of business regarding the evangelist, and I must admit that he was looked upon favorably by even a number of the so-called drinking class. Others criticised him for attempting to corner the money market of religion and for lack of sincerity. I myself was a trifle skeptical in regard to the latter.

So far as his sermon itself was concerned. Sunday used all the arguments of the temperance advocates since the time of Adam, with little attention, here and there. His statistics would do credit to a Hobson, and when he saw that these were getting monotonous he skilfully injected a little humor, which brought forth ripples of laughter.

As the large crowd filed out of the hullding after the services it was avident. building after the services it was evident from some remarks that many were dis-appointed because the evangelist did not inject enough acrobatic stunts, for which

he is noted, into his sermon. ever met. While I expected to hear the liquor While I expected to hear the liquor business criticised, I was rather surprised to learn that all liquor dealers are criminals and wondered why the Government discriminates in its treatment of criminals or why it protects and legalizes one form of criminality and punishes others. If what Mr. Sunday says is true—that the men engaged in the liquor business are criminals—why does the Government continue as partners in this criminality and receive \$256,000.00

in this criminality and receive \$350,000,001 annually as its share of the receipts? Why doesn't it close out the business. compensate the criminal partners and derive its necessary revenue from some other source, such as increased rents on real estate and water and additional

tariff on food products?
But I still believe that the liquor business does not make the man, any more than the profession of theology makes the man. There are some ministers of the Gospel as well as saloonkeepers who are far from what they should be mor-ally. According to an article which I

ally. According to an article which I read recently, there are more ministers serving sentences in the prisons of Alabama than there are bartenders.

After hearing his sermon, I sent Mr. Sunday a letter requesting a personal interview and I had the pleasure and honor of meeting him. When I arrived at his home, 1913 Spring Garden street, I was ushered upstairs to the front room, where the evangelist was resting in bed. He sat up and greeted me cordinly, and I must say, after our little tete-a-tete, that he is one of the finest men I have I might also state that Mr. Sunday has I might also state that Mr. Sunday has often been misquoted by newspaper men who trend toward sensationalism. I can

who trend toward sensationalism. I can safely say that the evangelist holds no personal animosity against any liquor man—or anybody else for that matter—and that when he preaches the so-called "booze sermons" he attacks the business and not personalities.

I was of the opinion that Mr. Sunday's most caustic critics are those who have neither seen him nor met him personally. It doesn't seem possible that anybody who has had the pleasure of meeting him could do other than admire him.
